Yoga is a vast science. IAYTTC -II is designed to give Yoga Teacher Graduates like yourself, from any tradition, a deeper experience of this ancient science. It intends for you to have an ongoing and stronger commitment to Yoga.

You can view the full daily schedule of the Advanced Course at www.yogashowstheaway.com as well as below.

The syllabus includes Patanjali's Yoga Sutras, and Advaita Vedanta. There is also an introduction to yoga and its use in illnesses, and the cultivation of health.

The advanced course looks at the participant as someone who is not a beginner. In this sense, the course builds on the foundations set in the RYT 200 hours Yoga Teachers' Training Course. The IAYTTC cements the methods, the knowledge and the understanding on how yoga can become a practical way of life.

This four-week course offers a profound personal experience, designed to build a firm foundation of inner discipline and an even better proficiency to teach yoga to others. The essence of yoga is learned through a combination of repeated practice and inspirational lessons. The approach to teaching is personal, focusing on the individual student. Among the many benefits students report are increased strength and flexibility, greater spiritual awareness, improved power of concentration, enhanced self-esteem and a new found sense of self-discipline, proper breathing, proper relaxation, proper diet, positive thinking, and meditation.

Sivananda Yoga Centre, Gurgaon

Sivananda Yoga Centre, Gurgaon (SYCG) was set up on 1 April 2004. Its main purpose is to spread the teaching and practice of an authentic and ancient system of yoga, thereby promoting health, well-being, freedom from stress and more balanced and visionary individual.

SYCG has daily yoga classes, special courses, annual programmes and retreats, yoga teacher training courses, advanced teacher training courses, yoga during pregnancy, and yoga classes for children and teenagers.

The classes are both online (on Zoom and YouTube), and onsite (in Gurgaon).

All the teachers at the Centre have taken an international residential or non-residential, or online teachers' training course (recognized by Yoga Alliance).

Each teacher goes through the same rigorous Gurukula system of training – learning by repetitive practice under the supervision of senior, more experienced teachers. They learn to have sensitivity, respect and a deep understanding of the human condition.

The yoga class and yoga system which we teach, is one of the most popular forms of yoga in the world today, easy to begin and to understand and to practice.

SYCG initiated its offsite programmes in October 2010, and has concluded many yoga retreats and teacher training courses over the past 12 years. More than 1,00,000 people have done yoga with SYCG.

More details about SYCG can be had from the website www.yogashowstheaway.com.

Teachers of SYCG

Sivananda Yoga Centre, Gurgaon has a teacher body of over 100 active teachers. Each of them has completed his or her International Yoga Teachers' Training course certified by Yoga Alliance to teach yoga anywhere in the world. This teacher body, growing and maturing as each day goes by, is one of the largest pools of qualified yoga teachers of the Sivananda system in the world, practicing and teaching together at one centre, online and onsite.

All the teachers at the Centre offer their time and teaching on a voluntary basis, making their work an act of seva, selfless service. The students therefore get a teacher who is not only highly trained and knowledgeable about yoga, but also one who is compassionate, gentle, caring and giving, without any inclination towards external reward. Each teacher leads by example, and it is a profound learning experience, just to be in their presence. Many of our yoga teachers teach on an average between 100 and 500 classes in a year.

Our greatest assets are the faculty who teach the IYATTC. They are some of the very best in the world, vastly experienced, senior, wise, charismatic, articulate, passionate, and highly motivated in sharing knowledge.

Many highly trained teachers will be faculty and assisting teachers for the IYATTC 2025.

FACULTY FOR VEDANTA, AND ANATOMY & PHYSIOLOGY

The teachers for the specialized subjects of Vedanta and Anatomy & Physiology are experts in their fields. We usually have the direct disciples of Swami Dayananda Saraswati in Swami Chinmayananda's tradition for teaching the subjects of Bhagawat Gita, Vedanta and Yoga Philosophy. They bring very deep subjects to life, with their pure and direct approach, even while making these ancient scriptures a pleasure to understand. For modern human biology and its relationship with yoga, we depend on medical doctors, either practicing Ayurvedic physicians or professors of Ayurveda, or allopathic doctors, who are also trained in yoga and allied sciences.
